

EEEM004 – Two Weekly Review Form

Name	Manas Rajendra Negi
Date	19/06/2026
Supervisor	Dr. Foh Chuan

Progress over the last two weeks:

Add some bullet points of things completed over the last two weeks. This may include further literature reviewing/reading, coding, practical work, generating results or some writing for your dissertation.

- Finalised Dataset: Shenzhen TB Dataset + Montgomery County TB Dataset
- Build Baseline CNN: DenseNet121
- Used: Accuracy, Sensitivity, Specificity, Precision, F1, ROC-AUC, Confusion Matrix

Any problems you have encountered in the past two weeks:

This may be difficulties accessing laboratories/software that have inhibited you from working. Note these problems may be ongoing from previous weeks and should be stated also if applicable. If there are not any, state 'none'.

- None

Any items that you wish to discuss with your supervisor at the next meeting:

Add bullet points of any items for discussion with your supervisor. It is your responsibility to raise them when you meet with them at your next meeting.

- Should I use and focus on Global surrogates:
 - Input: CNN feature embeddings
 - Output: CNN probability
 - Logistic Regression
 - Decision Tree

Or local surrogate models like SHAP, LIME, or GRAD-CAM or use a combined approach of Global and local surrogate models.

Meetings held with supervisor since 4th June 2026

Please insert dates of ALL meetings you have had with your supervisor since 4th June 2026. Obviously some of these dates may have been reported in previous reports and thus rolled over to this one.

If you have not met with your supervisor within the past two weeks of submitting this report, please state the reason here: Teams msg, and NotebookLM

Extenuating Circumstances impacting your progress

Since the start of the summer period, have you experienced any serious extenuating circumstances inhibiting you from engaging in your project for more than one week?	No
---	----

If the answer to the above was "Yes", then please ensure you email the Senior Personal Tutor, Dr Brown, Immediately after submitting this report on t.brown@surrey.ac.uk.
